

A LITE PAPER

ABOUT ON-CHAIN
SPECIAL NEEDS

HI. WE'RE DIFFERENT.

We're overjoyed to present the all new RETARD MONEY Litepaper, inspired by \$RTRDS - where logic takes a leisurely stroll, and absurdity runs the marathon. This isn't your typical on-chain narrative. We're special.

DON'T INVEST MORE THAN YOU CAN AFFORD TO LOSE IF ITS NOT OTHER PEOPLE'S MONEY.

FIG 1.1: A WILD RETARD IN ITS NATURAL HABITAT: TRADFI MSM

DISCLAIMER

\$RTRDS is a memecoin, a digital emblem of camaraderie and humor in the crypto space. It is not an investment and should not be bought with the expectation of profit. This project is about celebrating the lighter side of crypto - it's financial performance art. Join us for the memes, stay for the awkward smiles, the laughs, and the sheer joy of being part of something utterly nonsensical.

EPIC EPOCH: RETARD MONEY GENESIS

In the raucous world of on-chain finance, where the buzz of innovation meets the roar of the markets, and is often seasoned with hints of child-like wonder, playful disobedience, emerged a spectacle unlike any other—\$RTRDS, a memecoin that dances to the beat of its own drum.

Emerging from the depths of a bear market that had held the world in its icy grip, \$RTRDS heralded a new era. This was not just another blip on the charts; it was a movement, a joyful embrace of the wild, weird, and wonderful.

RETARD MONEY, fresh on the scene, marched to the forefront, as oddly endearing as a duckling brigade crossing Wall Street. With their unshakeable optimism and a certain charming cluelessness about the byzantine ways of the blockchain, they wove themselves into the fabric of the community.

“It is easier to fool someone who’s retarded rather than convince them they’ve been fooled because they’re retarded.”

—MARK TWAIN

The crypto veterans, the original digital mavericks, looked on with bemused affection. Here were their spiritual successors, a motley crew bedecked in hope and brimming with questions that bordered on the philosophical—or the comical.

The old guard realized that these newcomers, with their vibrant energy and unintentional wit, were not just fodder for the next bull run but the heart of a culture that thrived on the unexpected. In the world of \$RTRDS, wisdom wore a fool's cap, and insight came packaged in punchlines.

As the community swelled, the term "in it for the tech" became a private joke whispered with a wink. The \$RTRDS weren't here to dissect blockchain protocols; they were here to revel in the camaraderie, the chaos, and yes, the memes.

Thus, the legend of \$RTRDS was written—not in the ledgers of traders, but in the laughter of a community united by sheer, unapologetic absurdity. Welcome, then, to the circus of crypto, where the only entry fee is your sense of humor, and every moment is an invitation to smile at the sheer silliness of it all.

INTRO

\$RTRDS: Where Crypto Meets Comedy

RETARD MONEY introduces \$RTRDS, a token that embodies humor and communal spirit, designed to challenge the conventional finance narrative with wit and satire. This litepaper aims to provide an exhaustive outline of our tokenomics, strategic financial plans, governance structure, and community-centric initiatives that underline the \$RTRDS ecosystem. We're committed to a future that's built on the collective laughter and active engagement of our community, fostering a currency that's as fun as it is potentially valuable.

RETARD MONEY represents a paradigm shift in the world of cryptocurrency, bringing forth \$RTRDS as a beacon of satirical finance. This document is a detailed manifesto of our tokenomics, financing strategies, and our vision for a community-driven future, crafted with the spirit of humor and camaraderie.

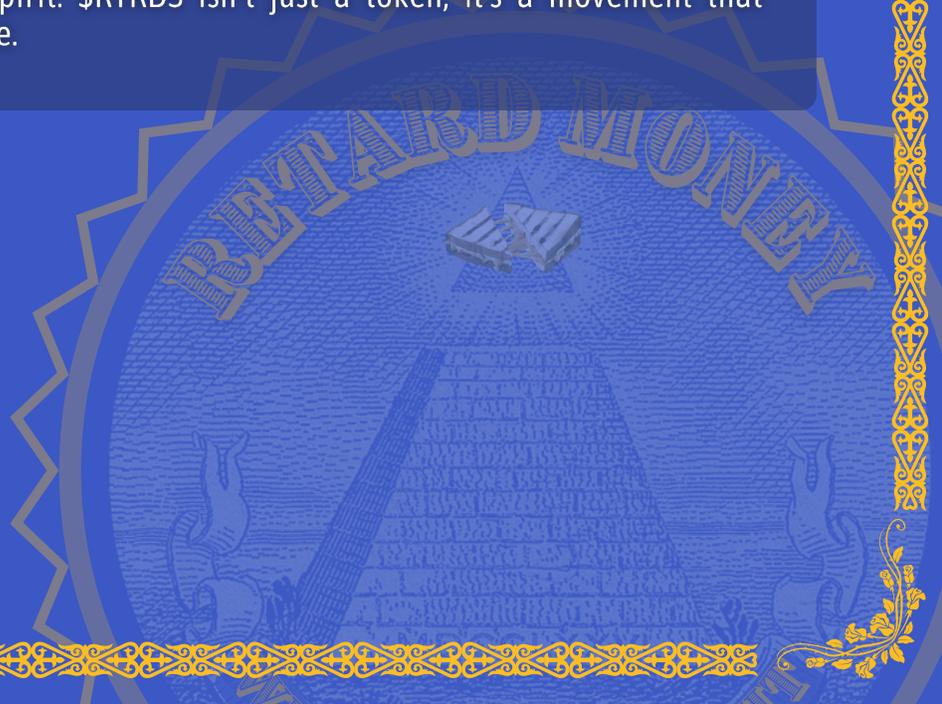

At the heart of RETARD MONEY is \$RTRDS, a token that defies the traditional cryptocurrency ethos. Instead of promising to solve complex problems, we do everything but.

\$RTRD defies the traditional cryptocurrency ethos. Instead of promising to solve complex problems, \$RTRDS is the jester in the pack — existing to bring a dose of levity to the oft-too-serious world of blockchain.

Core Aspects:

- **\$RTRDS Token:** The cornerstone of our satirical approach to cryptocurrency.
- **Community Empowerment:** Tailoring a future that resonates with the voice of our users.
- **Inaugural RETARDED OTC Event:** A unique opportunity to acquire \$RTRDS at special rates.

Within this litepaper, you'll discover our unique take on cryptocurrency — an amalgamation of wit, purpose, and community spirit. \$RTRDS isn't just a token; it's a movement that champions the lighter side of finance.

TOKEN UTILITY

\$RTRDS

STORE OF VALUE | ECOSYSTEM FUEL

\$RTRDS: It isn't just a memecoin; it's engineered to be the primary store of value within its ecosystem. Acting as a linchpin for various campaigns and initiatives, \$RTRDS is the driving force behind a series of planned activities that not only promote community engagement but also underscore its intrinsic value. Campaigns and Initiatives may include:

Launch Events:

- Celebratory campaigns that incentivize holding and trading \$RTRDS to qualify for airdrops, distributions, and rewards.

Community Governance:

- Empowering holders with the ability to vote on key decisions, including the allocation of resources for impact projects and community endeavors.

\$CRMSM

SOCIAL TIPPING | CHARITABLE ALIGNMENT

\$CRMSM: Serves as the social currency within the \$RTRDS ecosystem, facilitating peer-to-peer appreciation and support. It's a tipping and social token tool for magnifying goodwill, and will enable users to tip content creators, support causes, and endorse impact projects they believe in.

Its use will also be a key metric in determining token quantities for non-flat community rewards distributions: The unique number of Token transfers, trading activity, tipping contributions, frequency, and the number of authentic addresses that receive \$CRMSM from users will be used to reward loyalty and community growth and activation. Calculated and dropped to the RETARD MONEY community.

Deflationary Mechanisms:

By implementing a burn mechanism that outweighs total supply emissions, \$CRMSM will eventually become a deflationary token, enhancing its long-term value and stability.

Staking for Rights and Rewards:

Members of the community and governance can stake their \$CRMSM tokens to receive loyalty bonuses, expanded voting rights, and entitlement to guardianship roles within the ecosystem, such as overseeing the \$RTRDS NFT collection slated for release in Q3 of 2024.

RETARDED FINANCES + TOKENOMICS

CRAFTING VALUE FROM SPECIAL NEEDS

Our total supply of 1 trillion \$RTRDS is emblematic of our limitless aspirations. The allocation is distributed among the Founders, the GOV Fund, and the OTC Sale, with each segment playing a pivotal role in our ecosystem.

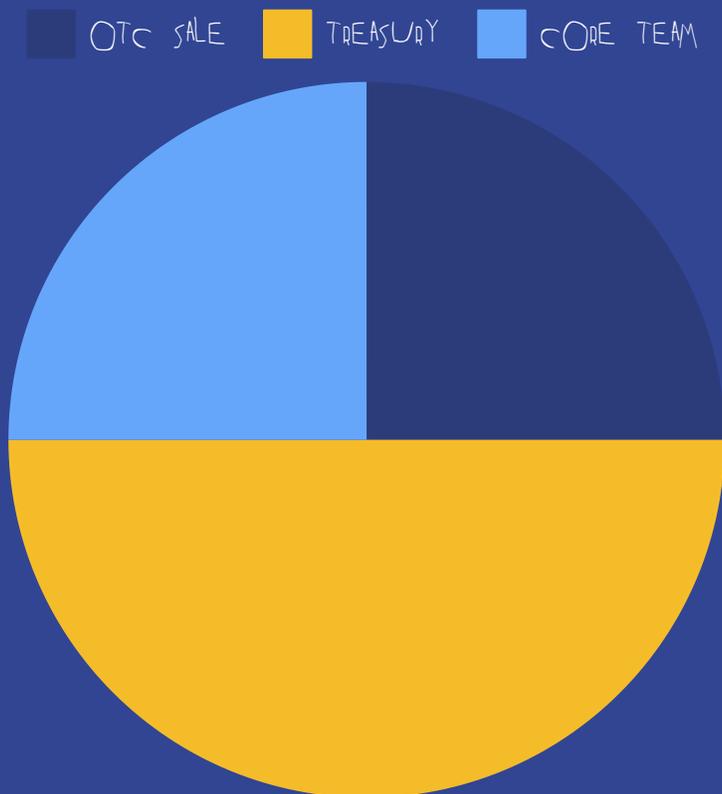

1 TRILLION \$RTRDS: OUR COMMITMENT TO SCALABILITY AND COMMUNITY REACH.

FOUNDERS' ALLOCATION: 25% FOR THE VISIONARIES AND CREATORS.

GOV FUND: 50% TO FUEL COMMUNITY INITIATIVES AND GOVERNANCE MECHANISMS.

OTC SALE: 25% FOR THE EARLY ADOPTERS WHO SHARE OUR VISION.

\$RTRDS ALLOCATION

OTC EVENT

April 1st, 2024, will mark a pivotal moment for investors to partake in our journey via an OTC event. The initial entry point for investors, we'll be offering 25% of \$RTRDS at a notable discount. It represents our beginning and the wider community's invitation to partake in the RETARD MONEY journey.

The proceeds from the OTC sale will be meticulously allocated to support operational expenses, fund governance, and ensure ecosystem growth, with strategic meme market investments and a Retarded AI Bot for burning mechanisms based on market triggers.

COMMUNITY: OUR FOCUS

Governance and Community Initiatives With a focus on community and an eventual transition to DAO, we'll be emphasizing transparency and communal decision-making.

Our ten-point plan for community engagement will incentivize a plethora of activities from meme competitions to charity votes and educational bounties.

\$RTRD INITIATIVES

Our community drives us. Hence, we've designed a ten-point plan that rewards creativity, participation, and the spirit of contribution.

- **Launch Events & Campaigns:** Recognizing and celebrating our community's involvement.
- **Governance Participation:** Enabling community members to direct significant project decisions.
- **\$CHRMSM Tokens:** Nurturing a culture of support and generosity within the \$RTRDS ecosystem.

COMMUNITY ENGAGEMENT PLAN

Meme Competitions: Encouraging creativity, rewarding loyalty with rewards.

Holder of the Month: Recognizing significant contributions to our community.

Random Airdrops: Surprising active members with \$RTRDS windfalls.

Charity Voting: Empowering the community with contributions to meaningful causes.

Governance Participation Rewards: Incentivizing active voting with perks.

Exclusive Merchandise: Offering unique branded items to our token holders.

Virtual Meetups: Creating spaces for dialogue and connection with AMAs and meetups.

Creative Contests: Extending beyond memes to embrace diverse forms of artistry.

FINANCIAL ALLOCATION FOR COMMUNITY INITIATIVES

Marketing and Events: A fixed percentage of GOV funds will be allocated to support the vibrant array of community events and initiatives.

Charitable Contributions: A dedicated fund within the treasury to support charity votes and social impact projects.

GOVERNANCE

The governance fund will be meticulously managed, creating a safe space for retards and holders of \$RTRDS can exercise their vote, influencing the allocation of funds in a manner that's transparent and reflective of the community's ethos.

With a focus on multisig wallet management and a transition to DAO, we'll also be emphasizing transparent and communal decision-making. Together we aim to empower each holder and supporter of RETARD MONEY with a significant say in the project's trajectory.

GUIDING \$RTRDS WITH COLLECTIVE WISDOM

The RETARD MONEY governance model is crafted to harness the collective insights of our community to create a better future for all supporters of RETARD MONEY.

FOUNDATION FUNDING: CULTIVATING STRENGTH AND VIABILITY

Substantial investment into our GOV fund will help to lay down foundation for community and build the RETARD MONEY governance framework. Our financial strategy is purpose-built to enhance \$RTRDS's presence and long-term sustainability within the market.

- **Events:** A significant share of the GOV fund dedicated to fostering engaging community events.
- **Charitable Causes:** Allocating funds for initiatives that align with our vision of making a positive social impact.

Operating Expenses: A portion supports the day-to-day operations critical to our launch phase.

Foundation Funding: Substantial investment into our GOV fund to lay down the governance framework.

Ecosystem Growth: Resources are dedicated to strengthening the reach and viability of \$RTRDS across multiple platforms.

Strategic Investments: Capitalizing on the momentum of the meme market, aligning with the movements of major players.

Retarded AI Bot: An automated mechanism to purchase \$RTRDS for burning, based on specific market triggers.

IMPACT IDEAS FOR GOODWILL

#RALLYFORRELIEF

Launch a global fundraising marathon where participants and supporters can donate \$CRMSM tokens to support charity, humanitarian, and disaster relief efforts. A portion of the collected funds would be burned to enhance token value, as well as a small portion to the GOV treasury, with the remainder donated to reputable relief organizations.

GREENTARDS INITIATIVE

Create a campaign focusing on environmental conservation. For each \$CRMSM tipped in support of green projects, a corresponding amount could be matched by the \$RTRDS Treasury and sent to vetted environmental non-profits, with a portion allocated to token buybacks and burns.

EDUCATION + EMPOWERMENT DRIVE

Spearhead an educational support campaign where \$CRMSM tokens are used to fund educational programs in underprivileged areas. Each donation would also contribute to a token burn, affirming the community's commitment to both social causes and ecosystem health.

ARTISTS FOR ADVOCACY AUCTION

Host an NFT auction featuring works from renowned artists within the \$RTRDS community. Proceeds from sales would be split between the artists, charitable organizations promoting arts in education, and a burn of \$CRMSM tokens to support token deflation.

TECH FOR TOMORROW TOURNAMENT

Organize a competitive event where innovators use \$RTRDS and \$CRMSM to fund and promote technology solutions for societal challenges. Contributions would support tech non-profits, with a simultaneous token burn to ensure a deflationary trajectory.

GETTING STARTED: SIMPLE AS 1,2, ...

**STEP 1:
GET PHANTOM
WALLET/APP**

**STEP 2:
BUY SOLANA
ON DEX/CEX**

**STEP 3:
SWAP FOR
\$RTRD ON JUPITER**
